Pediatric Recruit WIKI Homework 11.26.20 kjm

Here is a link to our provider orientation website (WIKI):

https://yk-health.org/wiki/Category:Overview_of_YKHC_Medical_Practices

Open the link and review the one page site map. The site is large and can be overwhelming, but the sections of the WIKI that would be most useful for potential new hires to review are bulleted below.

Take a look at the recommended links below and feel free to click around on the webpage to look at other interesting things.. If you get lost, click the back button or on the **YKHC logo**, at the top left, to return to the site map.

Interested in Working at YKHC?

Review GENERAL INFORMATION AND ORIENTATION:

- Introduction:
 - ✓ People, Place, and Culture
 - ✓ Bethel A to Z
 - ✓ Medical Practice Introduction with an overview of medical practice in the region plus a hyperlink at the end of the section to “A Glimpse of YKHC Bush Practice
 - ✓ Job Descriptions

Site visiting?

Look over areas of CLINICAL SERVICES, WORKFLOW AND RESOURCES that may be applicable to the job you are interviewing for.

Look at the CLINICAL RESOURCES section including YKHC guidelines, formularies, common/unique medical diagnoses, fun maps, etc.

Guide to YKHC Medical Practices

Welcome to the online Provider Orientation Manual—Guide to Medical Practices—for the Yukon-Kuskokwim Health Corporation. This manual is intended to be a resource for medical providers considering work at YK, new staff, locums and residents. It is intended to be a resource that is accessible and quickly available from the YK intranet and from outside the system. Use the table below to explore information about Bethel, the surrounding area, and the regional hospital, YKHC.
