

****Note:** When an adult patient discloses a sexual assault, it is his or her choice to report to law enforcement. Reporting without a patient's consent may breach his or her confidentiality. A SART exam/kit can only be conducted by a trained SAFE/SANE. Law enforcement must be involved, unless the patient wishes to have an anonymous kit collection. (See box.)

Anonymous Kit Collection

- SANE/SAFE will collect evidence anonymously.
- Kit will be stored indefinitely, and will **not** be analyzed by the crime lab until the assault is reported to the police.

If patient is <18 years, please see [Pediatric Sexual Abuse Procedure](#).
